SPARKLING EMOTIONS

Aimed at creating a comprehensive panorama of design concepts for urban displays, GRIVEN's family of pixel lighting solutions offers a wide choice of highly versatile fixtures. Allowing an impressive number of configuration set-ups for the maximum application flexibility, these high impact IP65 LED modules, bars or compact spot units can be mounted on large surfaces to screen low resolution video-footage or display a boundless layout of graphic patterns. Self addressing software, remote firmware update and full digital control over all functions are further evidences for these state of the art products packed with technology.
