

## Spillo

GR0036 SPILLO HMI 1200W

### SIZE

SPILLO is a steady position searchlight with manual and vertical angle adjustment, which projects a single beam moving in a fixed angle oval arc. SPILLO is fitted with an on board speed control and uses an HMI 1200W lamp. Highly suitable for lower budgets, this compact searchlight is the ideal solution for almost any permanent installation on retail shops, discotheques, cinemas, shopping malls, etc.
