Russia: Lighting design at the Night of Museums 2016

Organized in conjunction with the traditional "Night of Museums" held all around the world on May, 21 2016, the multi-sensorial event "Manege" attracted a wide audience to the largest cultural facility in Moscow. In order to celebrate its 199th anniversary, the authors wanted to recreate a metaphorical association between present and future through the usage of theater, dance...

A flexible portfolio of intelligent solutions

From now on, our comprehensive and flexible solutions portfolio will grant Griven choosers to benefit from alternative running systems other than DMX-protocol based tools. Griven offer has in fact been widened with the new DMX-DALI CONVERTER, a networking multi-output device featuring bidirectional data translation between different kinds of communication protocols (Ethernet, DMX512, DALI, MODBUS),...
