### **Romania - Circus in motion**

Built in 1961, the Bucharest State Circus Building, one of the largest circuses in Europe at that time, still hosts high quality artistic performances following the best Romanian tradition. After its foundation, it experienced a new bloom in the '60s not only in Romania but also abroad, exporting to all Europe a tradition of talented acrobats, jugglers, tightrope walkers, spectacular flying and...

### **Poland - A colour changing skyline**

Warsaw is continuously changing with new parks and boulevards taking shape on its riverfront and sparkling glass towers enhancing its expanding skyline. The greatest symbol of this ongoing change is undoubtedly Zlota 44, the tallest residential tower in Europe and Poland's most luxurious housing estate development. Designed by the world-famous architect Daniel Libeskind, who grew...
